If we do not repel and reverse this invasion, we will cease to exist as a nation. I support a renewal of President Eisenhower's successful program of 1953, Operation Wetback, which returned 2,000,000 illegal immigrants safely to their homes without violating the Constitutional rights of any Americans or lawful guests. I believe that the fedgov program of unlimited immigration was designed to destroy America as a White, Christian nation and make it impossible to restore the concept of limited Constitutional government which appears to be deeply rooted in the nature of people of northern Europe and North America and not deeply rooted elsewhere. However, as we implement Operation Wetback II, we must avoid the other trap which the enemy has set for us by refusing to allow any restrictions on Americans, such as the Communist/National Socialist (Nazi) concept of national or real ID or making American businessmen unpaid agents of the government who must report all new employees to any unconstitutional government employment data base which would force Americans to get government permission to work. Until Operation Wetback II is successful, there should be a moratorium on immigration. Afterward, immigration should be restricted to no more than 1/10<sup>th</sup> of one percent of the American population per year so that they can be assimilated successfully to principles of liberty. I favor restoration of the Immigration and Nationality Act of 1952, the McCarran-Walter Act, to restore balance.

## THE DRUG WAR

The drug war is a war on liberty. Like the other unconstitutional, overseas wars it should be ended immediately and all federal prisoners should be pardoned by the President. I favor repeal of the following: all federal drug laws, especially the 1906 Pure Food and Drug Act which regulates labeling of products containing certain drugs including cocaine and heroin, the 1914 Harrison Narcotics Tax Act, which was proposed by Francis Burton Harrison, a member of Skull and Bones Class of 1895, and which regulates opiates and cocaine, the 1937 Marijuana Tax Act which required taxation of marijuana and has caused the United States to have a higher prison population than Red China, the 1961 Convention on Narcotics Treaty to control marijuana and the 1970 Controlled Substance Act which established scheduling lists for drugs. When meddling busybodies imposed alcohol prohibition on the American people they acknowledged that they would have to amend the Constitution to do so. There has been no such amendment to authorize the drug war, which can only be enforced by police state measures.

## ELECTION REFORM

I support instant runoff voting (<http://www.instantrunoff.com/>), paper ballots manually counted and reported at each precinct and inclusion of the choice of None Of The Above in all federal elections, with new elections if NOTA wins. Instant runoff voting allows voters to rank their choices, thus ending the fear of voting for the best candidate because it might cause the worst candidate to win with only a plurality of the votes. Discriminatory federal laws which compel micromanagement of elections in some states and localities, such as coercing Cuyahoga County to print multilingual ballots, should end. The Voting Rights Act of 1965 should be repealed. Finally, the special privileges of political parties, including repressive ballot access laws, should be terminated. Eventually, there should be no party labels attached to candidates.

## EQUAL RIGHTS FOR EVERYONE, EVEN WHITE PEOPLE

I favor repeal of the Civil Rights Act of 1964 which abolished the right of private property in land. In a free country people have the right to sell or rent their property to, and hire and fire, whomever they wish. While compulsory state segregation (which ended 50 years ago) was wrong, compulsory federal integration is worse since it is much more difficult to leave the US than to move to another state.

All federal judges should be required to notify jurors of their right to acquit if they believe the defendant has been charged under an unjust law or to acquit if they believe that the defendant was treated unlawfully or unfairly by prosecutors or police. Jury Nullification is the basis for freedom of the press, the abolitionist movement and resistance to Prohibition. [www.fija.org](http://www.fija.org).

All federal employees should be required to take the Oathkeepers Oath to remind them that they are servants of the people. See [www.oathkeepers.org](http://www.oathkeepers.org) Here are excerpts from the Oathkeepers Oath: We will not obey any order to: 1. disarm the American people... 2. conduct warrantless searches... 3. detain American citizens as "unlawful enemy combatants" or to subject them to trial by military tribunal... 4. impose martial law or a "state of emergency" on a state or to enter with force into a state, without the express consent and invitation of that state's legislature and governor...5. Invade and subjugate any state which asserts its sovereignty...6. Blockade American cities, thus turning them into giant concentration camps... 7. force American citizens into any form of detention camps under any pretext... 8. assist or support the use of any foreign troops on U.S. Soil against the American people...We will consider such use of foreign troops against our people to be an invasion and act of war. 9. confiscate the property of the American people... 10. We will not obey any orders which infringe on the right of the people to free speech, peaceably assemble, and to petition their government for a redress of grievances.

## MARRIAGE AND OTHER RIGHTS

Marriage is not a Constitutional federal concern. I will vote to repeal the Defense of Marriage Act. The states should only uphold contracts, not write them. If homosexuals and other people want to make voluntary contracts, they should exercise that right as long as no third party is obligated by them. Those who wish to restore traditional marriage should work to abolish the income tax, the Fed and the government ("public") school system. I want to make English our official language. I support all state nullification efforts. I favor the repeal of all federal prostitution, pornography and gambling laws. I want to repeal the National Minimum Drinking Age Act of 1984, funding for Child Services kidnappers and the Violence Against Women Acts of 1994 and 2005. I support Downsize DC's Read The Bills Act: <http://www.govtrack.us/congress/bills/112/s3360/text>. I will vote to abolish the Selective Service System. A nation whose citizens will not defend it voluntarily does not deserve to survive.

SOCIAL SECURITY must be phased out gradually, with everyone given the opportunity to retrieve all the money which was taken from him and to get out of the system. Disclaimer: I am stealing back Social Security taxes which were taken from me.

In 2010, he ran for the State Legislature in Ohio House District 17 against Rebloodlican Marlene Anielski and Democrip Kelly Perk and garnered 2812 votes, 5.56%, a tie for the second highest percentage of votes for any alternate party candidate in a three-way race for a State Legislature seat in Ohio. This year he is running again for Congress against Rebloodlican Steve "Beyond Contempt" LaTourette, Democrip Dale Blanchard and Green Party candidate, Elaine Mastromatteo. ## MY COMMITMENT TO VOTERS AND ALL OTHER CITIZENS

I will never vote in violation of the Constitution or to deprive any innocent person of his or her God-given rights or liberties. I will never vote for new or renewed taxes, fees or regulations on any American or lawful guest. I will keep all of my promises, which **have no expiration date. I will hold all criminals in contempt.** Unless it would violate my previous commitments, I will seek to follow the will of my constituents and always represent their best interests. If I fail to keep these promises, I will resign.

## THE POWER OF THE HOUSE OF REPRESENTATIVES

If they had sufficient courage and refused to compromise, yield or bend their principles, 218 members of the House of Representatives, acting without the Senate or the President, have the power to stop all unconstitutional, treasonous, idiotic policies which created our police state, the severe danger of an intensified World War III and possible economic collapse. According to Article 1 Section 7 Clause 1 of the Constitution, the House of Representatives initiates all spending measures. 218 Representatives, acting alone, could stop every measure which requires money to finance the destruction of our country.

## MACKO PROPOSES TO END THE POLICE STATE.

On December 31, AD 2011, while most Americans who still had jobs were planning to celebrate the New Year, Barack Hussein Obama, aka Barry Soetoro, signed the National Defense Authorization Act of 2012. Sections 1021 and 1022 purported to authorize Obama to kidnap and imprison any American indefinitely without trial. On May 18, AD 2012, the US House of Representatives passed NDAA 2013 which continues these grossly unconstitutional usurpations of liberty. Steve LaTourette voted for this police state measure which set up a dictatorship which is no different legally from Lenin's, Trotsky's and Stalin's Soviet Union, Mao's Red China and Hitler's National Socialist Germany. Anyone who supports this abomination is a traitor.

I believe that 9-11 was an inside job, conducted by the Bush regime, with the possible assistance of the Mossad, for the purpose of starting World War III, establishing a police state and merging the United States into a one-world totalitarian government under the United Nations. This thesis cannot be proven in four pages. However, I am concerned that: the Twin Towers and Building 7 collapsed in a manner which was contrary to the laws of physics, hundreds of scientists repudiated the official story, the four hijacked planes were allowed to fly

# Vote for David Macko

# Libertarian for Congress Ohio District 14

around the northeast United States for over an hour, the alleged hijackers were apparently controlled and directed by US government and/or Mossad agents, high officials such as Condi Rice were advised not to fly on September 11, and finally, Dick Cheney gave orders not to shoot down the planes. I recommend two excellent sources of information on the deceptions of 9/11: Alex Jones, preeminent newsman and documentary film producer at [www.infowars.com](http://www.infowars.com); and the weekly newspaper, The American Free Press [www.americanfreepress.net](http://www.americanfreepress.net). I will work for an honest investigation of 9-11 and other mysterious events of the past six decades including the Kennedy and King assassinations and the attempt on George Wallace, the Gulf of Tonkin attack, Ruby Ridge, Waco, Oklahoma City and the mythical weapons of mass destruction in Iraq. As first steps, we must repeal the obscenely misnamed USA PATRIOT Act, the Real ID Act, the John Warner "Defense" Act, the Department of Homeland Security and the thuggish Transportation Security Agency and restore the Posse Comitatus Act of 1878 which prevents use of the armed forces to enforce domestic law. I favor abolition of the FBI and CIA and all federal "aid" to local police.

### MACKO WANTS TO STOP WORLD WAR III.

Since 9-11, the enemies of the human race have been moving relentlessly toward World War III, just as they caused World Wars I and II. Now that the Bush lie-based Iraq war is over, and the futile conflict in Afghanistan (a country which has repelled invaders from Alexander the Great to the Soviet Empire and us) is winding down, the enemy media and neocons are demonizing Iran, which has not launched an aggressive war for 200 years. Iran has as much right to nuclear weapons as any country, especially since it is surrounded by nuclear powers such as the Zionist state of Israel, India, Pakistan and 45 American bases and thousands of troops in Afghanistan and Kuwait. The United States was able to coexist with Joseph Stalin and Mao Tse-tung, the two greatest monsters in history, without war, although they had thousands of nuclear weapons. Certainly, we could do the same with Iran even if it does manufacture a handful of them. We should bring all of our troops home, end the empire and restore our republic. We need to **get the United States out of the United Nations and the United Nations out of the United States.** This will enable us to get rid of all UN subsidiaries including NATO, UNESCO and the World Bank. We need to end all foreign aid (which is unconstitutional even if we were not broke minus \$15 trillion) and entangling alliances, especially with the Zionist state of Israel, which is most likely to enmesh us in World War III. Getting out of the UN will resolve problems such as the proposed UN Gun Control Treaty, the Law Of the Sea Treaty and Agenda 21, which is designed to impoverish and enslave us under the communitarian form of communism. **I will give \$100 to the first person who can prove to my satisfaction that the alliance with Israel has benefited the American people in any way.** We need to repeal NAFTA, GATT and all other false free trade treaties which violate our sovereignty. Our objective should be Thomas Jefferson's, "Peace, commerce and honest friendship with all nations, entangling alliances with none." See "War Is A Racket" by Smedley Butler <http://www.informationclearinghouse.info/article4377.htm> "War Is The Health Of The State" by Randolph Bourne <http://www.bigeye.com/warstate.htm>

### MACKO WANTS TO END THE DEPRESSION

I propose the **0-0-0 Tax Plan**, known for several decades as the **Liberty Amendment** [www.libertyamendment.org](http://www.libertyamendment.org). This proposed constitutional amendment, which is supported by the Hon. Dr. Ron Paul and has been endorsed by other patriotic Congressmen, would require the fedgov to sell all unconstitutionally held federal land (over 1,000,000 square miles) and other properties. It would reduce the federal government so much that it would no longer need the Marxist taxes which would be repealed. I favor a moratorium on income and payroll taxes until the depression ends, repeal of gasoline taxes and a return of the federal highways to the states or to eventual private roads (See Walter Block, The Privatization of Roads and Highways: Human and Economic Factors) as the states determine. The abolition of the unconstitutional Environmental Protection Agency, Occupational Safety and Health Administration, the Departments of Commerce and Labor and federal minimum wage laws would help restore the flow of commerce, the original intent of regulation, much as laxatives regulate body functions, not block them. Executive orders and bureaucratic edicts which affect any American who is not a government employee are unconstitutional and should be nullified by Congress and no more should be issued. Pending removal of limited liability from private and government corporations, corporate taxes should be reduced at least to levels in the rest of the world. Corporations and other businesses do not pay taxes. They either collect them from customers or go out of business. I favor the abolition of the Department of Energy and abolition of all taxes, edicts, court orders, regulations and subsidies which hinder, restrict or otherwise impede the discovery, production, distribution and sale of all forms of energy: oil, gas, nuclear, coal, hydroelectric, wind, solar or any new form of which we are unaware now. The Energy Department has not created one horsepower of energy. The energy crisis, especially the fraudulent idea of Peak Oil, is a hoax. For information about the two hundred year supply of oil at Gull Island, Alaska, from Lindsay Williams, who was chaplain of the pipeline, see <http://www.reformation.org/energy-non-crisis.html> and <https://www.youtube.com/watch?v=NbakN7SLdbk> Most importantly, we must prevent future depressions by auditing the Federal Reserve System. An honest audit will educate and arouse the American people as to how the international bankster enemies of mankind have raped and pillaged them of their wealth for one hundred years, possibly locate some of our stolen wealth so that it can be recovered and identify those counterfeiters and traitors who are still alive so that they can be tried and executed for treason, thus serving the cause of justice and as an example for future generations. Once the audit has been completed, legal tender laws and taxes on sales of precious metals should be repealed. Counterfeiting, especially the crimes of fiat or fractional reserve currency, should be made capital offenses and Congress should **END THE FED** and exercise its power of coining gold and silver. Here is a statement by Congressmen Lewis T. McFadden (1876-1936), a patriot and prophet, over 80 years ago!: <http://dandelionsalad.wordpress.com/2008/07/21/louis-t-mcfadden-1876-1936-an-american-hero-by-richard-c-cook/>.

[www.mackoforliberty.com](http://www.mackoforliberty.com)

More recent, accurate sources of truth about the Fed, which is one of the ten planks of Marx's Communist Manifesto and which certainly has not improved since then, are: End The Fed by Hon. Dr. Ron Paul, The Creature From Jekyll Island by G. Edward Griffin, Secrets of the Federal Reserve by Eustace Mullins and all of the works by the great historian and economist, Murray Rothbard.

### PROPOSED CONSTITUTIONAL AMENDMENTS

1. I support the Liberty Amendment. See above.
2. I will submit the 14<sup>th</sup> Amendment for proper ratification and recommend that it not be ratified because the fedgov and other enemies of liberty have used and misused it to rob us of our liberties for almost 150 years. For detailed information of how the 39<sup>th</sup> Congress which proposed the 14<sup>th</sup> Amendment was illegal and how three quarters of the States failed to ratify it, together with all of the fraud and corruption which was involved in this most sordid act of the sordid Reconstruction era, see <http://www.mackoforliberty.com/14th-amendment.html>
3. I support the following amendment: **"Congress shall make no law that applies to citizens of the United States that does not apply equally to the Senators and/or Representatives; and Congress shall make no law that applies to the Senators and/or Representatives that does not apply equally to the citizens of the United States."**
4. The Bricker Amendment was proposed by former Ohio Senator John Bricker to end longstanding confusion and determine that treaties cannot supersede the Constitution, especially the God-given rights which are guaranteed in the Bill of Rights. The Eisenhower administration prevented its ratification. For more information, see [http://en.wikipedia.org/wiki/Bricker\\_Amendment](http://en.wikipedia.org/wiki/Bricker_Amendment) and <http://www.antiwar.com/essays/bricker.html>
5. Neither Congress nor the States shall limit, hinder or restrain commerce. (Suggested by Sheldon Richman, editor of The Freeman.)
6. "An increase in the federal debt requires approval from a majority of the legislatures of the separate States." I support this and all budget limitation proposals as long as the budget is never balanced by increasing taxes. Other amendments worth consideration if they have sufficient support:
  1. Limit the length of terms to two years for the President, three years for Senators and one year for Representatives. Most of them vote better during election years.
  2. Increase the membership of the House of Representatives to 700, with two hundred being chosen by parties through proportional representation, as long as parties have special legal status.
  3. Limit terms of Supreme Court justices to nine years, on a staggered basis.
  4. Establish a third house of Congress, a People's Veto, with one representative for every 30,000 persons with ability to veto any Congressional legislation, executive orders or bureaucratic edicts.

### MACKO WANTS TO RESTORE THE RIGHT TO KEEP AND BEAR ARMS.

I will work to defund and abolish the unconstitutional Bureau of Alcohol, Tobacco, Firearms and Explosives and repeal all federal gun laws, especially the National Firearms Act of 1934 (Roosevelt's tax on machine guns), the Omnibus Crime Control and Safe Streets Act of 1968, the Gun Control Act of 1968 (which is said to have been nearly copied from the

gun control laws of National Socialist Germany), the Gun-Free School Zones Act of 1990 and the Brady Handgun Violence Prevention Act of 1993. The very few federal gun laws which somewhat protect gun owners will no longer be necessary. I will also work to repeal all federal taxes on firearms and ammunition, since these are infringements of the Second Amendment. I will oppose any new federal gun laws or re-imposition of the Federal Assault Weapons Ban, which the enemy is constantly trying to revive.

### MACKO BELIEVES THAT THE RIGHT TO LIFE SHOULD BE PROTECTED FROM CONCEPTION TO NATURAL DEATH.

Abortion is murder, but the Constitution regards it as a state, not federal, crime. When you give the government the power to decide who is not a human being (as when Soviet Russia dehumanized Czarists, the Russian nobility, Orthodox priests and nuns, businessmen and kulaks, peasants who were more prosperous than average, and when the National Socialist German government dehumanized Jews, Slavs, Gypsies and homosexuals) the result is always a totalitarian government which murders millions of innocent people. I will promote legislation to remove the appellate jurisdiction of the Supreme Court from abortion cases, thus nullifying Roe vs. Wade and other anti-life decisions which caused the deaths of over 53,000,000 preborn Americans. I support Congressman Dr. Ron Paul's Sanctity of Life Act. I disagree with the Libertarian Party platform position on the right to life. I support Libertarians for Life. See [www.l4l.org](http://www.l4l.org).

### HEALTH AND EDUCATION FREEDOM

I will work to defund and repeal Obamacare and all other forms of socialized medicine. I will strive to abolish the Department of Health and Human Services and the Food and Drug Administration and begin to phase out Medicare and Medicaid. We must reverse Lyndon Johnson's Great Society advances to socialism, which caused the huge increase in hospital and other medical costs. The fedgov has no Constitutional authority over health. If the government controls your health you are a slave. Meddling in issues such as whether people can drink raw milk or what vitamins and medical therapy they should use is none of the government's business. I want to close down the Department of Education. The fedgov has no Constitutional authority in this area and its "federal aid" and control have led to highly increased prices and much lower standards. If the government is involved in education, it should be at the local level with control by parents and other taxpayers. Ultimately, government control of education, another of the ten planks of the Communist Manifesto, should be abolished by the states and municipalities but Congress has no power to do that.

### THE IMMIGRATION INVASION

We do not have an immigration problem. We have an invasion problem. As with abortion, I do not agree with the official Libertarian Party position regarding this issue. <http://www.lp.org/platform>. John Hospers, the first Presidential candidate of the Libertarian Party and a doctor of philosophy, presented a contrary position: A Libertarian Argument Against Open Borders.
